

Pink Melon Lollies

Servings: 5

Prep Time: 15min

Cook Time: 0

Ingredients

- 900g diced, skinned and deseeded watermelon - fiddly but worth it
- 2 tbsp granulated sugar
- 5 tbsp lime juice (you'll need about 3 limes)
- 2 tbsp grated ginger
- green popping candy, to serve (optional- see tip, below)

Directions

1. Put the melon, sugar, lime juice and ginger in a blender (or use a stick blender) and whizz until smooth. Skim off any fluffy stuff, then divide between ice lolly moulds and freeze overnight.
2. When you're ready to serve, remove the lollies from their moulds and dip into popping candy, if you like, or see tip, before tucking in.

Rub some green food colouring into a little more granulated sugar. Then, just before eating, dunk your pink lolly in. We used silicone ice balls as our ice lolly moulds
